Contents	i
List of Contributors	iv
Preface	
(T. Shinbo)	x
I. Introduction	
1. Kuroshio Science as a Multi-Disciplinary Science and its Network in the Kuroshio Region	1
(S. Tanaka)	
2. The Problems of Coastal Environment and Natural Resources: The Case of the Philippines	9
(R. J. G. Bulao)	
3. Legal Basis of the Integrated Coastal Zone Management by the USA, Germany, and Japan : A Comparative Study	25
(S. Akama)	
II. “Know”	
A. Oceanic Current	
4. Overview of the Kuroshio	38
(H. Yoritaka)	

B. Coastal Marine-Ecosystem

5. Tropical Coral Reefs and Seagrass Beds as Fish Habitats: Reef Fish-Based Ecosystem Services under Anthropogenic Stresses in the Kuroshio Region 45
(Y. Nakamura, R. U. Bobiles, A. D. A. Espadero)
6. Climate Change-Mediated Range Shifts in Tropical Reef Fishes: Implications for Management and Coral Ecosystem Services along the Kuroshio Region 58
(J. C. Lerionato, Y. Nakamura)
7. Tidal Flats as Habitat for Endangered Benthic Animals: Importance of Animal Burrows for Symbiotic Species 65
(Y. Henmi, Y. Shiozaki, S. Kirihaara, G. Itani)
8. Crab-Infesting Bopyrid Isopods in the Philippines 73
(J. M. Corral)
9. The Unvegetated Tidal Flats in Catanduanes Island, Philippines: Current and Future Trends 76
(K. Q. Aldea)

C. Vegetation and Soil in Coastal Area

10. Riparian Forests in the Region along the Northwestern Pacific Side 83
(M. Higa)
11. Characteristics of Volcanic Soils around Mt. Mayon, the Philippines 96
(S. Tanaka, S. D. Sambajon, K. Kobayasi, M. Hoshina, A. P. Camaya, S. G. Tabayag-Almorfe)

III. “Use”

12. Analyses of Marine Bioresources for Development of Potential Local Resources in Bicol Region, Philippines 111
(T. N. Avila, K. L. Canon, P. M. Nieves, A. B. Mendoza Jr., R. G. Bradecina, M. C. Bigueja, J. C. C. Nolial, N. C. Celestial, S. Kubota)
13. Japanese Law of Offshore Wind Power – in Comparison with German Offshore Wind Energy Act – 126
(S. Akama)

IV. “Protect”

14. Reef Coral Restoration Program in the Bicol Region, Philippines	139
(A. B. Mendoza Jr., P. M. Nieves, S. Kubota)	
15. Studies on Coral Diversity and Biology Using Emerging Cytogenetic and Molecular Approaches	151
(J. Vacarizas, S. E. Manalili, T. Mezaki, T. Taguchi, S. Kubota)	
16. Development of Onshore Fish Aquaculture Technology which is Expected the Load Mitigation to Coastal Environment	163
(S. Oshima, M. Houkin, K. Hashiguchi)	
17. Analyzing Factors of Participation in MPA Management and its Incentive Mechanism	176
(E. L. Ballard, T. Shinbo)	
18. Economic Analysis of Organizational Design for Coastal Management	186
(Y. Amemiya)	

V. Closing

19. Trial for Setting-up of Biotechnology Laboratory in SUCs in the Philippines for Kuroshio Science Research Network	200
(S. Kubota, S. E. Manalili, J. Vacarizas, T. N. Avila, K. L. Canon, P. M. Nieves)	
20. Future of the “Kuroshio Science” Network	212
(S. Kubota)
